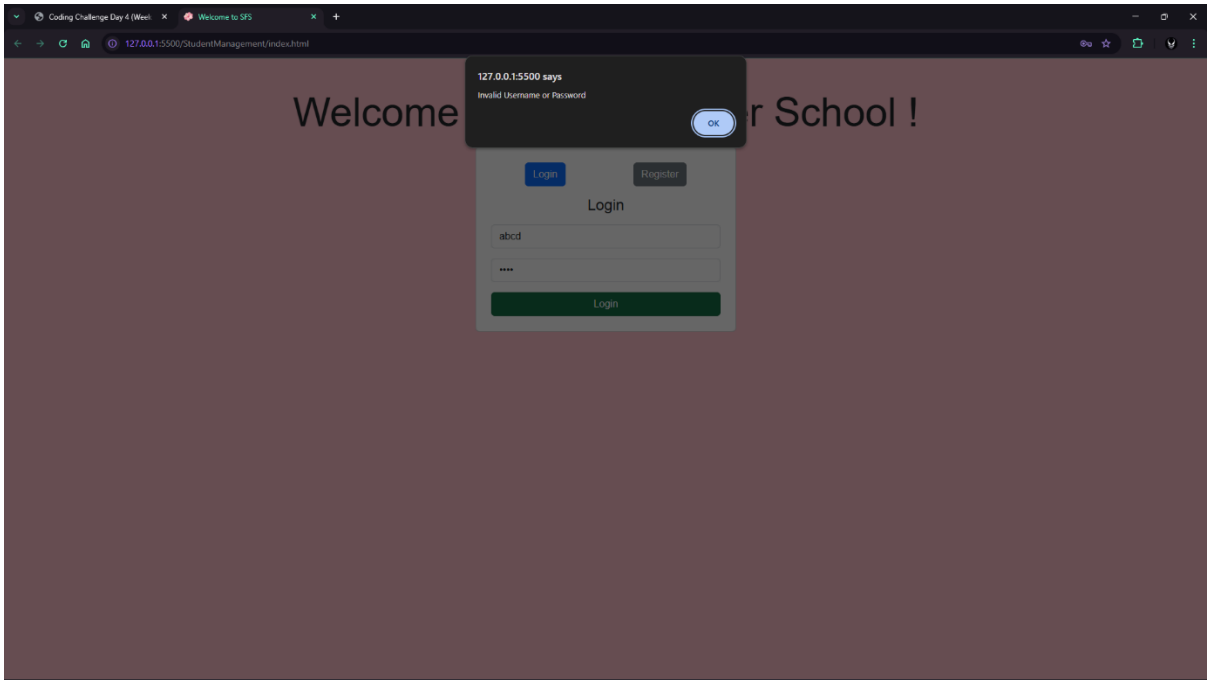
Student Management Sprint 2

To create the login page and monthly char page I have only use Boot strap and some inline css.

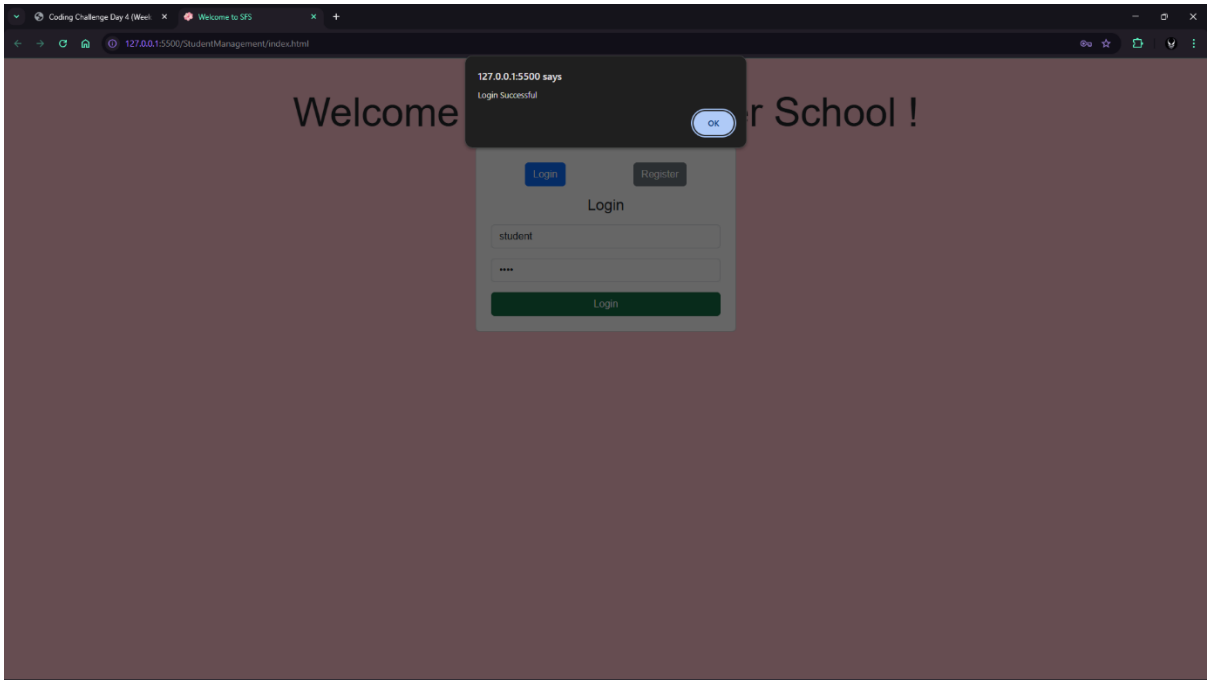
Screen Shots:

Login Page:

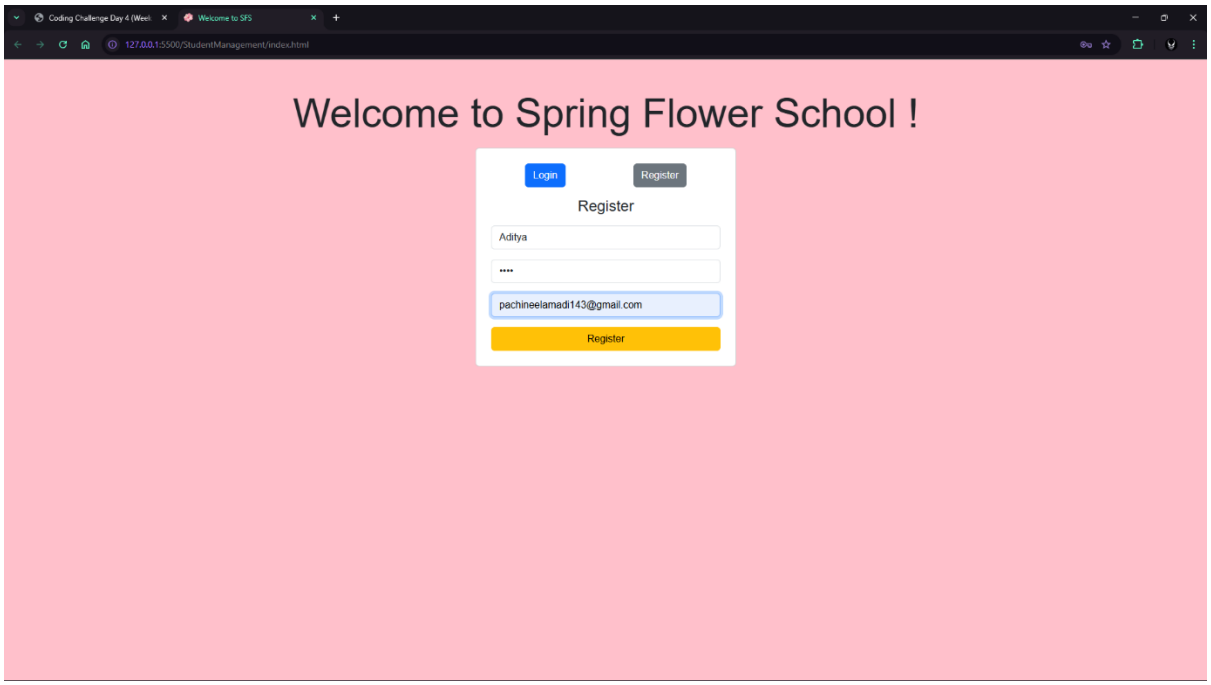
1.User cannot login without Registering:



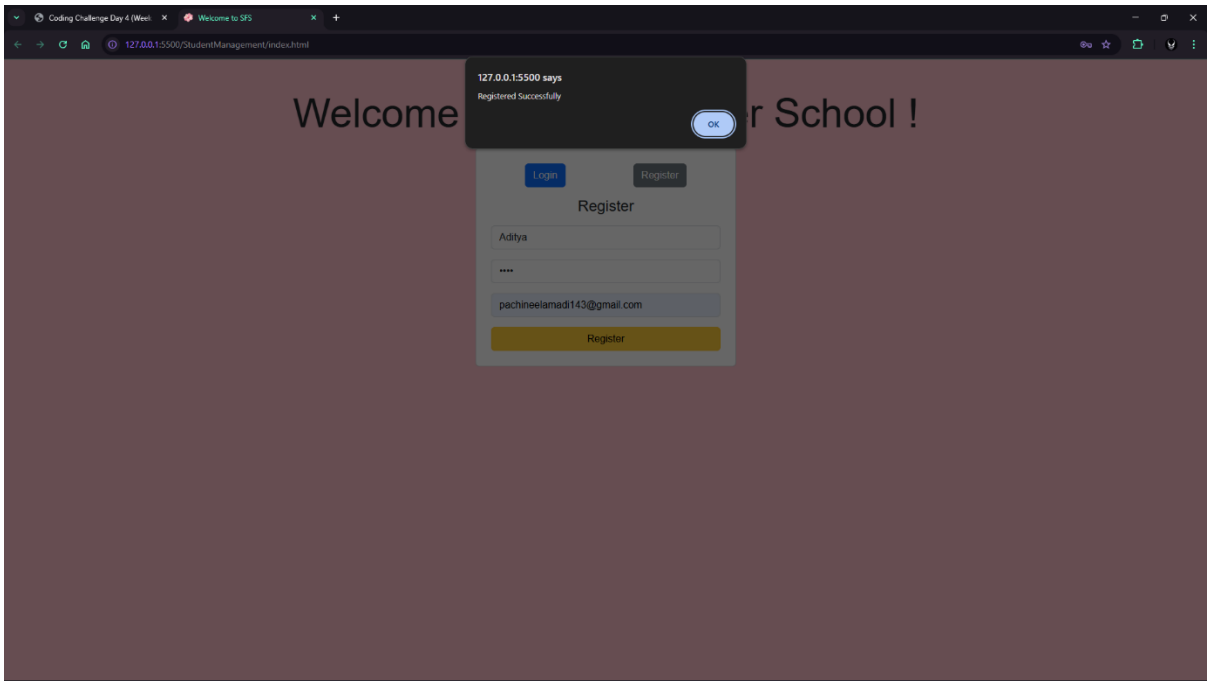
2. User can login after Register



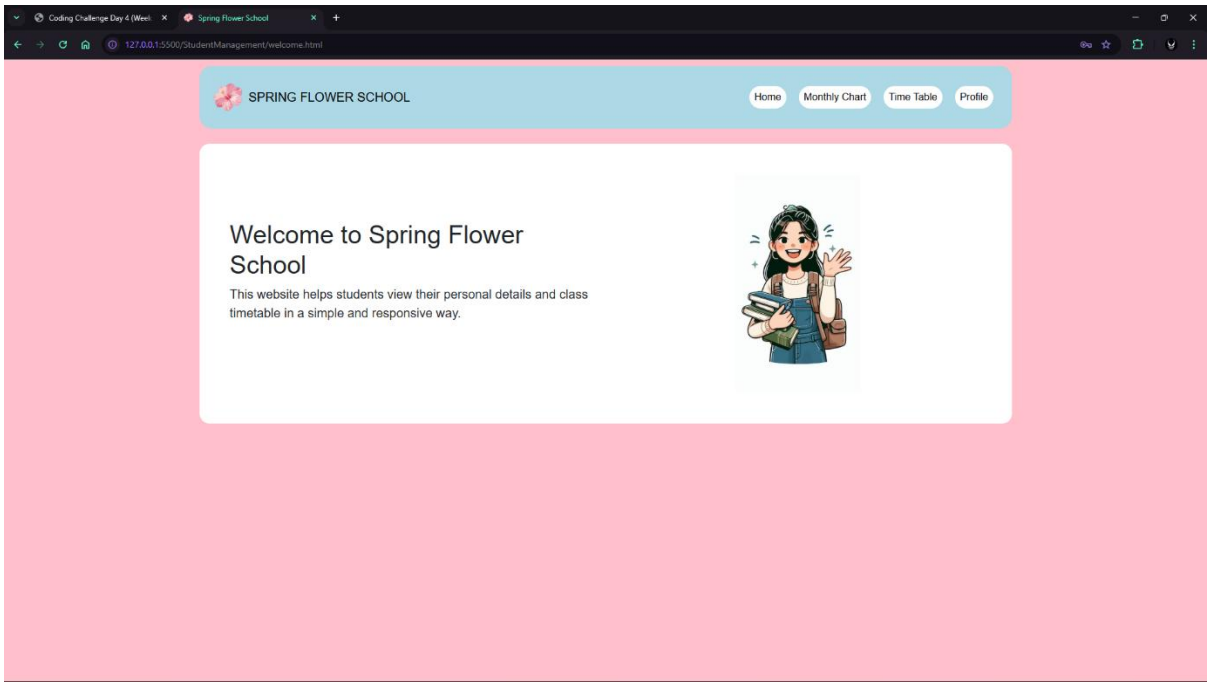
Register Page:



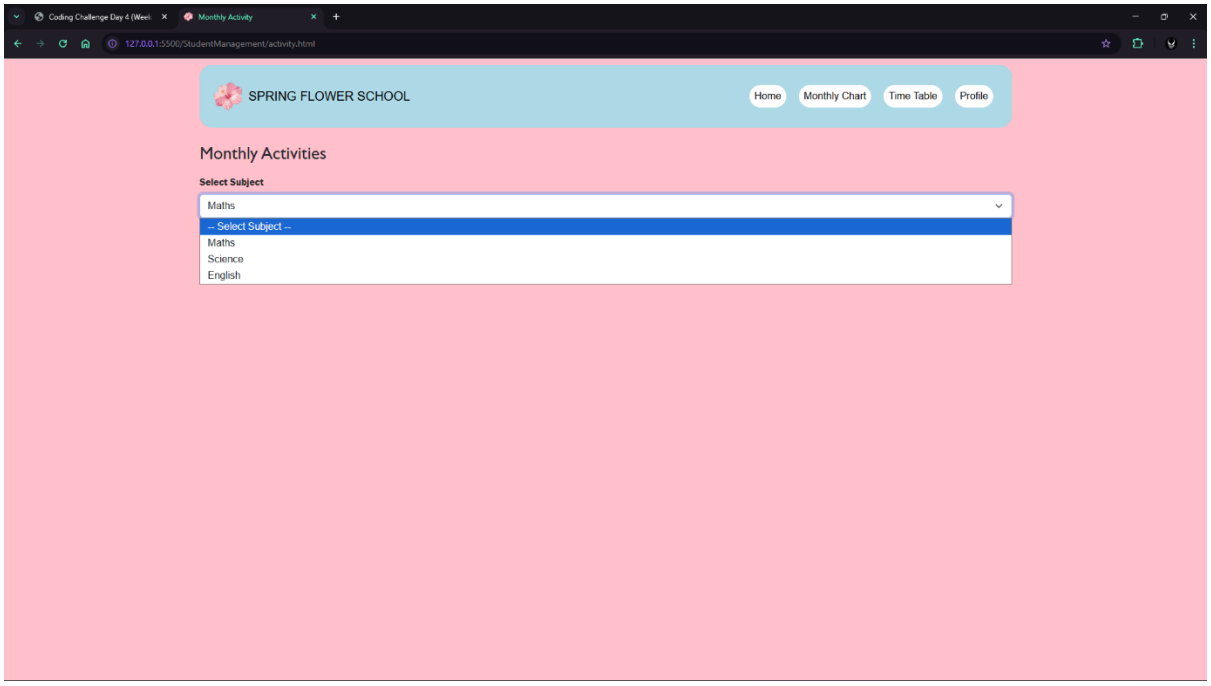
Registered Successfully:

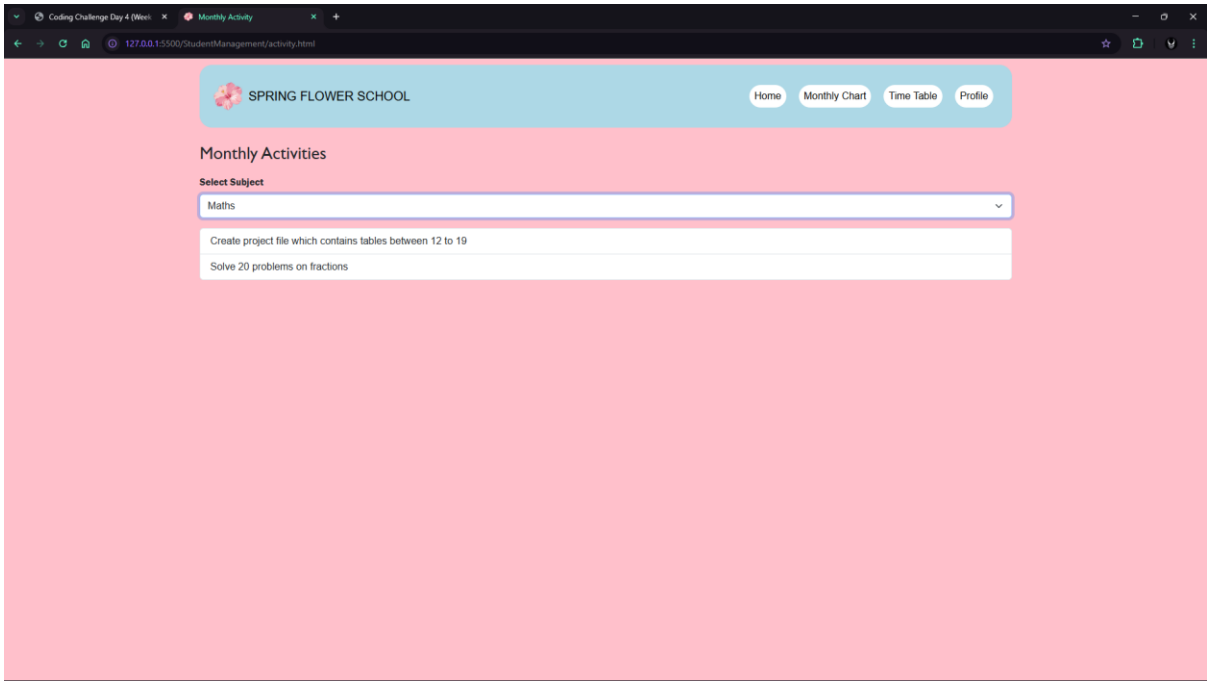


Home Page with Monthly Chart in the Menu:



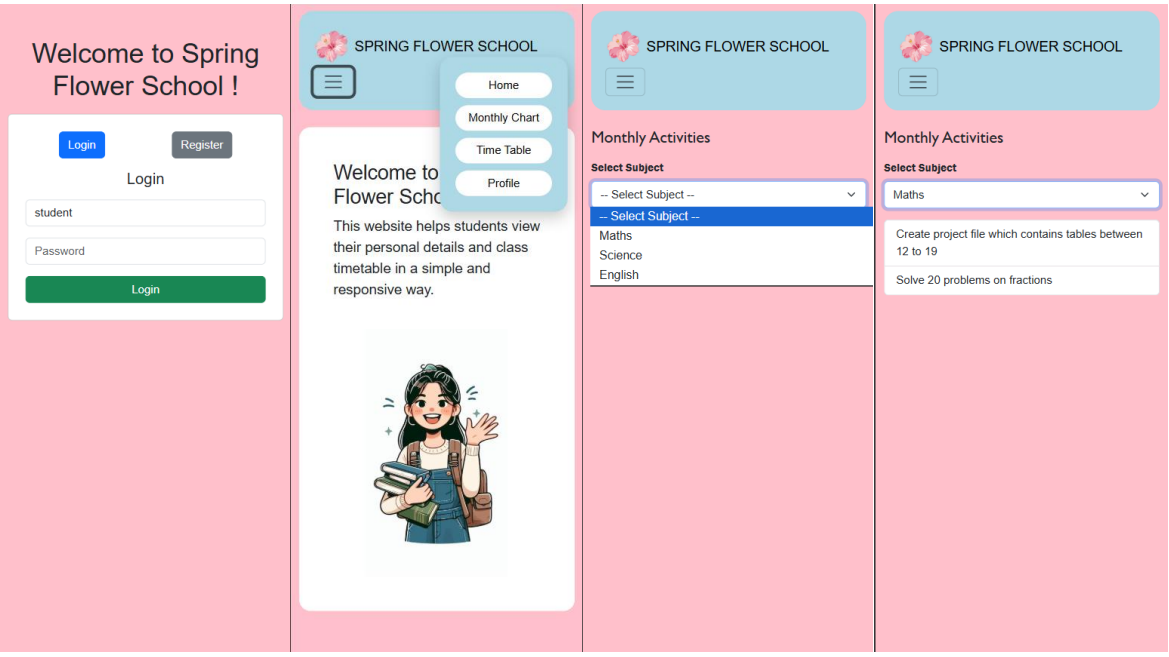
Monthly Activity Page with Selectable Drop Down:





Mobile Screen Shots:

Login page: **Home page:** **Activity Page:**



index.html:

```
<!DOCTYPE html>
<html lang="en">

          class="form-control mb-3"
          placeholder="Username"
        />
        <input
          type="password"
          id="regPass"
          class="form-control mb-3"
          placeholder="Password"
        />
        <input
          type="email"
```

```
          class="form-control mb-3"
          placeholder="Email"
        />
        <button class="btn btn-warning w-100" onclick="register()">
          Register
        </button>
      </div>

    </div>

  </div>
 </div>
</div>

</body>
</html>
```

Script.js:

```
let users = [
  { username: "student", password: "1234" }
];

function showLogin() {
  document.getElementById("loginForm").style.display = "block";
  document.getElementById("registerForm").style.display = "none";
}

function showRegister() {
  document.getElementById("loginForm").style.display = "none";
  document.getElementById("registerForm").style.display = "block";
```

```
}

function register() {
  let user = document.getElementById("regUser").value;
  let pass = document.getElementById("regPass").value;

  if (user === "" || pass === "") {
    alert("Please fill all fields");
    return;
  }
  users.push({ username: user, password: pass });
  alert("Registered Successfully");
  showLogin();
}

function login() {
  let user = document.getElementById("loginUser").value;
  let pass = document.getElementById("loginPass").value;

  let valid = false;

  for (let i = 0; i < users.length; i++) {
    if (users[i].username === user && users[i].password === pass) {
      valid = true;
      break;
    }
  }

  if (valid) {
    alert("Login Successful");
```
